BOGGI AERONAUTICS

External & Internal Installations

External Camera Mount Support

Cabin Mission Console

External Camera Mount Support

Boggi Aeronautics has developed a lot of experience in designing external installation systems for high-performance cameras. It is designed and test ed to ensure maximum safety and stability during aerial camera operations.

- EXTERNAL SUPPORT FOR CAMERAS
- DESIGNED AND TESTED FOR SAFETY
- AVAILABLE IN TWO CONFIGURATIONS
- QUICK AND EASY REMOVAL/INSTALLATION

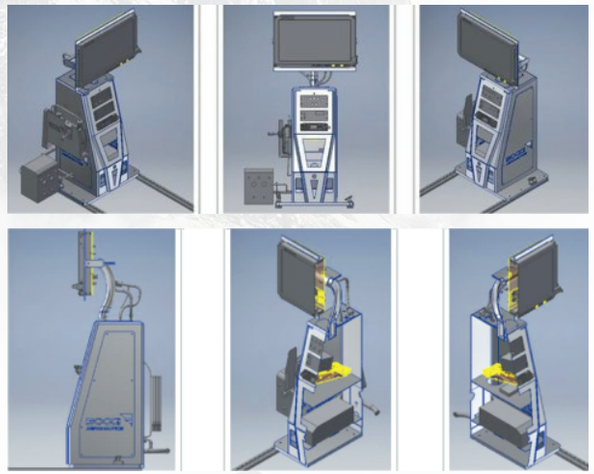

APPROVALS, INSTALLATION & MAINTENANCE

- The modification is EASA STC approved for TC-1542HD camera system
- Other authorities validations available on request
- List of partners for Distribution and Service & Support is found on the webpage
- Expected manhours for each installation is approximately 2 days
- Periodic inspection to be accomplished every 100 hours / 1 year

Cabin Mission Console

- Dimensions: Width 240mm, Length 330mm, Height 360mm, Weight 18Kg
- Possibility to connect it with gyro-stabilized cameras like the trakka TC-300
- Designed to be installed on helicopters in compliance with CS-29
- Can house equipment like DVR AVR8411 and AVM4177 Avalex Type monitor
- Other equipment, including mission workstations with dedicated power supply, available on customer request
- Control panel with breakers and switches customizable on customer's application (ex. safety interlock for laser)
- Customizable connections / power cabling system uses seat attachment points (seat tracks).
